Thank you for the review of Ballet Arizona's performance of the Nutcracker. I too started watching at a very young age and my mother thought it would be an annual family outing we would do at Christmas time. Never did she imagine she would have 3 children on stage dancing. This year I finally was given the part as the prince. I started at age 5 as a party boy. My sister is a mothers ginger child and my other sister is a soldier. I am now 11 years old and the girls are 10 and 8. i dance about 14 hours a week and hope to someday be a professional dancer. I made my first trip to New York City to dance this summer. Once again thank you for enjoying the show and your review. Andrew Ranshaw
